*"Even though I had expected it to happen someday, my husband's death was a shock. I certainly could not have got through those first few days without your help. Thank you so much." L. Ewen*

*"How do you keep your head together when your heart is broken? Thank you Brenda for your strength and support." D. Appelt*

## Brenda Turino's Personal Experience

Brenda answered the telephone in 1992 to find that her sister-in-law age 38 and nephew age 11 had just been killed in a car accident on their way home. This was the first time she had experienced a death in her family. That phone call changed Brenda's life forever. She had to tell her brother and her niece that the other half of their family was gone. Next it was time to get organized, take charge and turn this horrible tragedy into a beautiful tribute to their lives.

Since then she has buried her mother, father, uncles and aunts. Brenda has been an Executrix, sold property privately, estate disbursements and planned many funerals.

Brenda knows the pain of death and understands that you need time to grieve.

**It is not just the funeral that needs planning there is so much more involved.**

While you are in a state of confusion and feeling somewhat numb you need someone you can trust, who is responsible, experienced and focused to help you make sound decisions at a very emotional time.
